

PROFESSIONAL PRODUCT GUIDE

WHAT BEGAN OVER A CENTURY AGO as a simple furniture polish laboratory in the garage of founder Frank Meguiar Jr., has spanned four generations of the Meguiar family. In his wildest dreams, it's doubtful that Frank Meguiar, Jr., could have foreseen what his first bottle of furniture polish in 1901 would evolve into over the next 100+ years.

Meguiar's®, Inc. has become the global leader in appearance care and is proud to offer our next generation of products, tools and accessories to serious car enthusiasts. We strive to set an entirely new standard for quality and performance in the industry.

From his first bottle of furniture polish, Frank Meguiar, Jr. built his business on excellent products and an understanding of his consumer's needs. Today, Meguiar's enduring and strong relationship with serious car enthusiasts worldwide has created a level of trust and respect for the brand that transcends our products and embodies the lifestyle of the car hobby. To this day, Meguiar's is committed to delivering products and building relationships that excite and unite car enthusiasts and professionals worldwide.

PROFESSIONAL DETAILING SOLUTIONS

Meguiar's® Detailing Cart is a three-level rolling cart designed to put all your detailing supplies within easy reach. Work more efficiently by rolling your supplies with you as you move around a vehicle. When you're not using the cart, it can store your tools and supplies – so the next time you want to detail, you're ready to roll!

MGCART

- This durable cart features engineered thermoplastic resin shelves with an aluminum-reinforced top shelf
- Cart will not mar automotive paint surfaces
- The 4-inch full-swivel ball-bearing rubber casters roll silently as you work, while tandem caster brakes prevent roll-away
- The 36-1/2" high cart has three 24" x 18" x 2-3/4" tube shelves with 12" between each shelf
- Top shelf can accommodate up to 24 32 oz. bottles and aerosol cans
- Middle and Bottom shelf can store up to 9 gallons of products on each
- Great storage for pads, tools and brushes

*Bottle organizer not included.

PROFESSIONAL METERING SYSTEM

When running a professional detailing business, anywhere that you can save time and money impacts the bottom line. Meguiar's® Professional Metering Systems are a great option to consider since they quickly and accurately dial in the proper dilution ratio to mix your professional products. Over time, this will help eliminate waste while saving time and effort.

ACCURATE DILUTIONS

The DMS can be set up at the recommended dilutions to ensure that each time you push the button the correct mix is delivered.

MINIMIZE WASTE

Fill directly to the secondary bottle no need to free pour or spill.

SAVE MONEY

No need to pre-mix for the day or week, the DMS is ready when you are. When you need product just push the button.

3 MODELS TO CHOOSE FROM

The Meguiar's Professional Metering System measures accurate dilutions to minimize waste and reduce labor cost by eliminating manual mixing. Three different models are available and all feature tough stainless-steel cases and include tubes, metering tips, and color-coded labeling kit.

DMS6000 PROFESSIONAL METERING SYSTEM

- 3-button selector dial dispenses up to 6 different concentrates
- Fast fill, 4 GPM fill for car wash products
- Locking buttons for autofill of large containers

DMS1HIGH

- Single button, Fast fill, 4 GPM fill for car wash product
- Locking button for autofill of large containers

DMS1LOW

- 1 GPM fill for secondary containers
- Capable of metering high viscosity and low ratio products

METER SET UP

Everything in one place. All you need is a water source that meets minimum pressure (see instruction manual). No power needed!

*This is an example set up, only. DMS units and Meguiar's products are sold separately. Wire rack not included.

PROFESSIONAL NEW PRODUCT INTRODUCTIONS

Meguiar's has been crafting premium formulas to perfect and protect the various surfaces in and around automobiles for 120 years. In that time, we have been building upon the knowledge, experience, and refinement that can only come with time and maturity. We are constantly seeking out creative solutions and ways to further innovate with the ultimate goal of delivering sophisticated, cutting-edge products that perform better, make peoples' lives easier, and make their cars look amazing.

WASHES

Meguiar's® Detailer Hyper-Wash

Meguiar's® Detailer Shampoo Plus

Meguiar's® Detailer Super Soap

Meguiar's® Detailer Citrus Blast Wash & Wax

Meguiar's® Detailer Rinse Free Wash & Wax

Meguiar's® Ultimate Snow Foam

D110 Hyper-Wash

Rich stable foam provides excellent performance
Great for foam cannons
Hyper concentrated
Ideal for use in mixing/metering systems

SIZES: 5 gallon, 1 gallon
SKUS: D11005, D11001

METHOD: Wash & Rinse
DILUTION: 400:1

D111 Shampoo Plus

Conditioning agents boost gloss
Rich, lubricating formula reduces scratching
Pleasant fragrance

SIZES: 5 gallon, 1 gallon
SKUS: D11105, D11101

METHOD: Wash & Rinse
DILUTION: 128:1

D112 Super Soap

Rich lubricating suds provide fast effective cleaning
Foam rinses quickly for increased productivity
Ideal for use in mixing/metering systems

SIZE: 5 gallon
SKUS: D11205

METHOD: Wash & Rinse
DILUTION: 128:1

D113 Citrus Blast Wash & Wax

Premium high-gloss carnauba wax finish
Quick rinse formula saves time & water
Powerful high lubricity cleaners & Citrus Blast Scent

SIZES: 5 gallon, 1 gallon
SKUS: D11305, D11301

METHOD: Wash & Rinse
DILUTION: 128:1

D115 Rinse Free Wash & Wax

Wash & wax all exterior vehicle surfaces without rinsing
High gloss, water beading durability
Non-scratch, non-streak formula
Quick and easy wipe off

SIZE: 1 Gallon
SKUS: D11501

METHOD: Wash & Rinse
DILUTION: 4:1, up to 20:1

G1915 Ultimate Snow Foam

Designed for foam cannon
Relentless thick foaming action
Powerful, yet gentle enough for all surfaces
Excellent on waxed or coated vehicles
Hyper-lubricity formula

SIZE: 32 oz.
SKUS: G191532

METHOD: Wash & Rinse
DILUTION: 5:1

WHEEL CLEANERS

- Meguiar's® Detailer Wheel & Paint Iron DECON
- Meguiar's® Detailer Non-Acid Wheel & Tire Cleaner
- Meguiar's® Detailer Wheel Brightener

D1801 Wheel & Paint Iron DECON

Rapid color-changing iron remover for wheels and paint
 pH balanced, safe on all wheels & painted brake components
 Clings to wheels to remove road grime, grease, & iron

SIZES: 5 gallon, 1 gallon, Secondary Bottle
SKUS: D180105, D180101, D201801

METHOD: Spray & Rinse
DILUTION: RTU

D143 Non-Acid Wheel & Tire Cleaner

Effective and easy cleaning of wheels and tires
 Quickly removes brake dust, road grime, light grease, and dirt
 Spray on, lightly agitate, hose off

SIZES: 5 gallon, 1 gallon, Secondary Bottle, RTU Bottle
SKUS: D14305, D14301, D20143, DRTU143

METHOD: Spray & Rinse
DILUTION: RTU, Up to 2:1

D140 Wheel Brightener

Effective on clear coated, factory painted, & chrome wheels
 Easily removes brake dust
 Concentrated formula
 Not for use on polished aluminum

SIZES: 55 gallon, 5 gallon, 1 gallon, Secondary Bottle
SKUS: D14055, D14005, D14001, D20140

METHOD: Spray & Rinse
DILUTION: Up to 4:1

CLEANERS & DEGREASERS

Meguiar's® Detailer Wheel & Paint Iron DECON

Meguiar's® Detailer Iron Removing Spray "Clay" - RTU

Meguiar's® Detailer All Purpose Cleaner

Meguiar's® Detailer Citrus Power Cleaner Plus

Meguiar's® Detailer Super Degreaser

Meguiar's® Detailer Glass Cleaner Concentrate

A tough cleaner to remove heavy dirt and grime

Great for cleaning and prepping all vinyl, plastic, rubber, and urethane surfaces

Apply to vinyl tops, bumpers, plastic door panels, car and boat interiors, luggage and furniture

Cleans compound and polish residue from plastic moldings

SIZE: 16 oz.
SKUS: M3916

METHOD: Spray & Wipe
DILUTION: RTU

BODY SHOP SAFE

PROFESSIONAL IRON REMOVAL

Iron particles from brakes and rail dust can land on paint and damage it over time if not addressed in a timely fashion. Using a clay bar system isn't always effective at removing such contaminants. Iron removers are the perfect and non-abrasive way to quickly and easily break down ferrous metal particles that are often embedded in the paint and prepare the surface for compounding, polishing, and protecting.

MEGUIAR'S® DETAILER WHEEL & PAINT IRON DECON

D1801 Wheel & Paint Iron Decon is a unique, professional formula that safely and effectively removes embedded iron particles from body panels, wheels, and painted brake components. This ready-to-use formula is pH balanced, making it safe and highly effective. D1801 is the perfect solution for pro-strength iron removal.

MEGUIAR'S® DETAILER IRON REMOVING SPRAY "CLAY" – RTU

DRTU2002 Iron Removing Spray "Clay" quickly removes iron-based contaminants & industrial fallout, while also dissolving below surface contaminants such as rail dust & iron oxides. This decontamination helps prepare the surface for faster paint correction & better results!

PRO TIPS

- Use Iron Decon prior to washing, spraying on a cool dry surface will enhance product performance.
- Can be used as a clay lube, safe to use with C2000 or C2100 clay bars or Meguiar's® Synthetic Clay Pad.
- For large jobs, Iron Decon works great in your favorite pump sprayer.
- Can be diluted if necessary.
- pH Balanced, this is not an acid or a degreaser.

PROFESSIONAL STAIN REMOVAL

When cleaning carpet and upholstery, different stains can require different approaches and methods to ensure that you properly remove the staining and help keep it from returning. This is why Meguiar's developed the Professional Carpet & Upholstery Cleaning Process that implements D106 & D116.

MEGUIAR'S® DETAILER PRO FIBER RINSE & TANNIN STAIN REMOVER

D106 Pro Fiber Rinse & Tannin Stain Remover is specially formulated to quickly remove tannin stains and pH neutralizes carpet and seats after using Meguiar's All Purpose Cleaners. D106 Pro Fiber Rinse & Tannin Stain Remover will minimize re-soiling of fibers too!

MEGUIAR'S® DETAILER PRO PROTEIN STAIN REMOVER

D116 Pro Protein Stain Remover is a pre-spot removal formula to quickly and effectively remove protein stains off carpet and upholstery fibers. It will also dissolve urine stains and neutralize urine odors.

PRO TIPS

- Pre-Spot with D106 RTU prior to other high PH cleaners or if you are unsure of what the stain is.
- For added cleaning and odor elimination on protein-based stains, mix 20oz water with 6oz D116 and 6oz of D106.
- Only mix what is needed for the day, D116 is the strongest for 24 hours after mixing.
- Final Step: mist and back brush your carpet & upholstery with D106 at 20:1 to neutralize the fibers and prevent restaining.
- Can be used in the rinse tank of your extractor.
- Always use gloves.

D10601

D11601

PROFESSIONAL LEATHER CARE

Automotive leather is exposed to various elements over time, including the sun's UV rays, extreme temperatures, dirt, dust, grime, and oils from our skin. These things start to impact the leather making it age and making it more difficult to clean. To keep leather looking and feeling its best, it is essential to consistently clean and maintain as this will help preserve it for now and years to come.

MEGUIAR'S® DETAILER LEATHER CLEANER & CONDITIONER

D180 Leather Cleaner & Conditioner is formulated to enhance the appearance of interior leather and vinyl surfaces. Specialized cleaning and conditioning agents are designed to safely clean and restore leather's original look and suppleness.

MEGUIAR'S® DETAILER LEATHER CLEANER

D181 Detailer Leather Cleaner, is a fast-acting cleaner for all leather interiors that is less aggressive than an all purpose cleaner. It is non-staining, colorless, removes tough stains and restores a like-new look to leather upholstery. For production detailers or anyone looking for a good value, this is the perfect leather cleaner.

PRO TIPS

- Use a dedicated Meguiar's® Microfiber Wash Mitt to apply D180 to your leather. Use one side to apply and the other side to wipe clean.
- D181 is ready to use on stubborn dirty leather. If you need more cleaning ability for protein stains, add 6oz of D116 to 26oz of D181 in a dedicated bottle.
- Keep the Microfiber Wash Mitt in a dedicated container and it will be ready to use the next time.

METHOD: Rotary
DILUTION: RTU

M101 Foam Cut Compound

Ultra-fast & reliable sanding mark removal

High-gloss finish

Specially formulated for ultimate foam pad performance

SIZES: 32 oz.
SKUS: M10132

METHOD: Hand, DA Polisher, Rotary
DILUTION: RTU

M01 Medium Cut Cleaner

A moderately abrasive cleaner that removes medium defects, including swirls, water spots on glass and paint, and water sanding marks

Diminishing abrasives cut quickly, then reduce to a polishing rouge

Buffered abrasive action lubricates the finish to prevent scouring

Ideal for older lacquer and enamel paints

SIZES: 16 oz.
SKUS: M0116

METHOD: Rotary
DILUTION: RTU

M02 Fine Cut Cleaner

A mildly abrasive cleaner that removes fine surface defects including light oxidation, stains, scratches, swirls and fresh water spots

Diminishing abrasives cut quickly, then reduce to a polishing rouge

Buffered abrasive action lubricates the finish to prevent scouring

Ideal for older lacquer and enamel paints

SIZES: 16 oz.
SKUS: M0216

METHOD: Hand, DA Polisher, Rotary
DILUTION: RTU

M04 Heavy Cut Cleaner

Removes heavy swirls, scratches, severe oxidation, alkaline and acid rain etching

Diminishing abrasives cut quickly, then reduce to a polishing rouge

Buffered abrasive action lubricates the finish to prevent scouring

Ideal for older lacquer and enamel paints

SIZES: 16
SKUS: M0416

METHOD: Rotary
DILUTION: RTU

PROFESSIONAL DEFECT REMOVAL

Swirls, scratches, oxidation, and water spots not only make a car look bad but also diminish the amount of gloss, shine, and depth. These below surface defects can range the full spectrum anywhere from light to severe. To try to help guide pro detailers and enthusiasts to the right products for their specific needs, we came up with the aggressiveness scale located on the left-hand side of the front of each of our Professional Mirror Glaze™ products. We have a wide selection of compounds ranging from 1-12 in aggression so you can tailor the product specifically to the job that you're doing while maximizing results.

MEGUIAR'S® MIRROR GLAZE™ PRO SPEED COMPOUND

M100 Pro Speed Compound is a fast cutting body shop safe compound with advanced technology designed for Professionals. Pro Speed Compound quickly removes 1200 grit and finer sanding marks, and removes deep scratches, acid rain, and severe swirls/holograms. It can be used on fresh and cured paints and is safe in a body shop environment.

M10001

M10032

PRO TIPS

- Use M122 and MT103 to prep the surface and clay if needed.
- Wet polishing technique works best in Rotary and DA applications.
- Apply your product to the panel in a line when using a Rotary Polisher set at 1800 RPMs.
- Work overlapping passes at least 50% in a 2'x2' area, work the product while wet until defects are removed.
- When using a DA, apply M100 directly to a DFC or DMC Pad.
- Work DA at about 4500 OPM's in the 2'x2' area with 50% overlapping passes with moderate pressure.
- Wipe with M122 to check your work.

PROFESSIONAL GLOSS & REFLECTION

There's nothing better than flawless, defect-free paint that looks so deep and glossy that you could almost dive right into it. Part of obtaining maximum gloss, shine, and reflectivity is dependent on removing above surface bonded contaminants, embedded particles, and below surface defects. However, using a polish further refines paint and takes it to the next level for that deep, wet-looking shine. M110 & M210 are a great combination of products that work together to quickly remove below surface defects while leaving paint with a deep, glossy finish that's ready for protection.

MEGUIAR'S® MIRROR GLAZE™ ULTRA PRO SPEED COMPOUND

M110 Ultra Pro Speed Compound is the next evolution in advanced cutting compounds. Formulated with professional body shops and detailers in mind, this all-new formula delivers a quick and heavy cut and high gloss depth of shine at the same time.

MEGUIAR'S® MIRROR GLAZE™ ULTRA PRO FINISHING POLISH

M210 Ultra Pro Finishing Polish is the next evolution in cleaner polishes that delivers amazing results, even on sensitive paints. Formulated with professional body shops and detailers in mind, this all-new formula quickly removes light paint defects like DA haze and Rotary swirls, finishing flawlessly without DA haze, swirls or holograms.

PRO TIPS

- Use M122 and MT103 to prep the surface and clay if needed.
- Prime your pad with a mist of M34 or D155 to avoid hot spots for rotary use.
- Apply your product directly to the panel when using Rotary set at 1500 to 1800 RPM's.
- Work rotary with flat moderate pressure with 50% overlapping passes.
- Apply product to the Pad when using a DA.
- Work DA set at 4500 to 5000 OPM's to compound with moderate pressure and 5000 to 5500 OPM's to polish with light pressure.
- If possible, blow the pad out with compressed air.

M205 Ultra Finishing Polish

Advanced technology formula provides a deep gloss and rich, swirl-free results

Permanently removes swirls & light defects from all paints

Produces deep reflections & high gloss

Smooth buffing feel and fast wipe-off

SIZES: 1 gallon, 32 oz., 8 oz., Secondary Label
SKUS: M20501, M20532, M20508, VSLM205

METHOD: Hand, DA
 Polisher, Rotary
DILUTION: RTU

M210 Ultra Pro Finishing Polish

Creates deep, glossy finish even on dark & sensitive paints

Finishes down without haze, swirls or holograms

Easy wipe-off, virtually zero dust or sling with Rotary or DA

Follow Meguiar's® Mirror Glaze™ Ultra Pro Speed Compound for optimal results

SIZES: 1 gallon, 32 oz., Secondary Label
SKUS: M21001, M21032, VSLM210

METHOD: Rotary, DA
DILUTION: RTU

M83 Dual Action Cleaner/Polish

Removes light to medium contamination

Combines the perfect amount of abrasive cleaner and pure, rich polish to produce a customer pleasing deep gloss shine

Buffered abrasive cleaning removes defects without marring the finish

Safe on all paint finishes

SIZES: 1 gallon, 32 oz., Secondary Label
SKUS: M8301, M8332, VSLM83

METHOD: Hand, DA
 Polisher, Rotary
DILUTION: RTU

M82 Swirl Free Polish

Formulated for fresh paint

High performance polish eliminates swirl marks fast

Specially blended polish with cleaning power removes fine scratches

Smooth, fast application and easy wipe-off

Restores a glistening "new paint" shine

SIZES: 32 oz.
SKUS: M8232

METHOD: Hand, DA
 Polisher, Rotary
DILUTION: RTU

M09 Swirl Remover 2.0

A deep gloss cleaner/polish

Removes fine scratches and swirl marks while providing a dark, dramatic shine

Formulated to reduce splatter and make application and wipe-down easier

SIZES: 16 oz.
SKUS: M0916

METHOD: Hand, DA
 Polisher, Rotary
DILUTION: RTU

M03 Machine Glaze

Outshines all other machine applied polishes, glazes, waxes and sealants

Penetrating nutrients revitalize all paint finishes

Buffing residue wipes off easily

Restores original brilliance and clarity

Safe and effective on fiberglass, plastic and paint

SIZES: 64 oz., 16 oz.
SKUS: M0364, M0316

METHOD: Hand, DA
 Polisher, Rotary
DILUTION: RTU

M07 Show Car Glaze

Outshines all other hand-applied polishes, glazes, waxes and sealants

Restores a dazzling, deep, wet shine

Does not dry white

Safe and effective on all paint finishes

SIZES: 16 oz.
SKUS: M0716

METHOD: Hand, DA
 Polisher, Rotary
DILUTION: RTU

PROFESSIONAL DEFECT REMOVAL

Meguiar's
Since 1901

To get the job done right and in a reasonable timeframe, you must have a variety of premium, professional tools on hand that are ready to deliver results. Meguiar's® MT300 will equip any professional detailer or enthusiast with the ability to remove a wide range of below surface defects without the aggression of a rotary buffer. It's also the perfect way to save time by applying polishes, waxes, and sealants. Designed by professionals, for professionals and detail enthusiasts, the MT300 delivers the features that professionals demand. From the lightweight, ergonomic form, to the billet counter weight with multi-bearing design, to Meguiar's Digital Torque Management speed controller, the MT300 is destined to be the workhorse polisher in shops around America. When used with our Soft Buff Foam Discs or our DA Microfiber System, start achieving the results that you expect & need!

MT300

PROFESSIONAL
DUAL ACTION POLISHER

PRO FEATURES

- Multi position, removable D handle improves comfort and control for all skill levels.
- Ergonomic design - perfect combo of form & function.
- Soft start provides easy control upon start up.
- Digital Torque Management electronically adjusts torque to maintain loaded speed level.
- Billet counter weight with multibearing design.
- Universal throw (5/16" / 8mm) is great for compounding, polishing, and waxing.

PROFESSIONAL DEFECT INSPECTION

Meguiar's
Since 1901

Meguiar's® Sunlight 3+ is the perfect tool for anyone looking to inspect their paint for a myriad of defects. This simple-to-use light redefines what is possible from a single light, allowing users to identify pre-existing defects, check their paint correction work, verify paint match, or even to inspect after applying a coating for the presence of high spots. The co-branded Meguiar's® & Scangrip® inspection light features exclusive, separate stepless dimmer switches for both light output and color temperature. Additionally, a convenient memory function allows for instant on/off without searching for settings. All of this comes in a rugged, durable aluminum alloy casing that's designed to both perform and last. The MT103 Sunlight 3+ is a must-have tool for anyone detailing on a regular basis.

SUNLIGHT 3+

MT103

PRO FEATURES

- Robust cast-aluminum frame for rugged durability.
- Linear Kelvins adjustability between 2500K and 6500K.
- Linear Lumens adjustability between 50lm and 500lm.
- Unique on/off setting memory feature.
- Rear LED displays indicate output settings.
- Adjustable magnetic base.

ONE STEP CLEANER WAXES

SIZES: 64 oz., 16 oz., Secondary Label
SKUS: M0664, M0616, VSLM66

METHOD: Hand, DA
Polisher, Rotary
DILUTION: RTU

PROFESSIONAL ONE STEP CLEANER WAXES

When detailing, it's essential to have a variety of options on hand depending on what the paint needs, how much time you want to put into it, and ultimately what you or your customer wants in the end. Sometimes you need to do a multi-step system and then there are other times when doing multiple steps isn't necessary. One-step cleaner waxes are the perfect option when you want to clean and remove light paint defects, enhance the depth of gloss and shine, and get wax protection back on the paint all with ease and convenience of one product.

MEGUIAR'S® DETAILER ULTRA POLISHING WAX

Have you ever had the need for an effective one step to save on time but didn't want to sacrifice the ability to properly remove paint defects? With D166 Ultra Polishing Wax you can get considerable defect removal and durable protection in one easy step. Formulated with advanced SMAT (Super-Micro Abrasive Technology) to provide a cut that's quick and consistent removing a variety of below surface defects including swirls, light to moderate oxidation, light scratches, water spots, stains, and more.

PRO TIPS

- For DA Use on heavy defects, use a DMC Cutting Disc at 4500 OPM's with light to moderate pressure – look for pad rotation for best results.
- Use a DA with a DFP Polishing Disc at about 5000 OPM's with light pressure to work D166 into the surface for a higher gloss – look for pad rotation for best results.
- Do not over apply product to disc.
- Clean your pad frequently.
- Use a Meguiar's Detailer Spray and a high quality Microfiber to check progress and avoid micro marring.

D16601

D16632

PROFESSIONAL WAXES, SEALANTS, & COATINGS

Automotive paint is constantly bombarded by a variety of elements in the environment. Meguiar's waxes, sealants and coatings are a perfect way to keep it protected and looking its best. Traditional carnauba-based waxes offer a good depth of shine and protection. Sealants provide an improved shine while delivering increased fully synthetic protection. Lastly, coatings are the newest advancement in paint protection and offer even longer lasting protection, increased durability, and a high water beading quality that makes maintaining the paint even easier.

MEGUIAR'S® PRO HYBRID CERAMIC SEALANT

M27 Pro Hybrid Ceramic Sealant is an advanced formulation uniquely tailored to deliver a professional strength liquid sealant that offers the best Hybrid Ceramic technology available. With a true SiO2 foundation, this ceramic hybrid sealant is formulated to deliver outstanding durability in an extremely easy to use format. It can be applied by hand or by dual action polisher like a sealant, but it allows for longer curing time before wiping off so it can be applied to the entire vehicle before removing. This all-new formula was engineered from the ground up, delivering a brilliant gloss and slickness and can be applied as an extremely durable stand-alone sealant or applied over another wax, sealant or Paint Protection Film for additional protection. Not only is it very easy to use and wipe off, but it's also safe on plastic trim & decals without leaving behind any stains or white residue.

M2701

M2716

MEGUIAR'S® HYBRID PAINT COATING

G210300 Hybrid Paint Coating is a feat of modern chemistry, blending the best attributes of traditional ceramic paint coatings with the advantages of our proprietary Hybrid Polysiloxane chemistry. The result? Our most chemically resistant and durable paint protection formula to date, that's incredibly simple to apply! This professional-level paint protectant provides over a year of durable paint protection* that outlasts conventional waxes and sealants. TrueCure cross-linking technology delivers chemical resistance, long-term durability and leaves paint slick with hydrophobic water-beading action. In the end, you get professional-level protection with extreme durability giving you the benefits of a ceramic coating without the high cost. *Up to 1 Year+ Paint Protection based on water contact angle lab testing and predictive modeling.

Enhances waxes, coatings, & sealants

Gently remove fresh contaminants between regular washes before they have the chance to bond

SIZES: 26 oz.
SKUS: G200526

METHOD: Spray & Wipe
DILUTION: RTU

PROFESSIONAL SURFACE PREP

Meguiar's
SINCE 1901
**MIRROR
GLAZE**

After washing, preparing the surface is an essential step you don't want to overlook to obtain the best possible results. Removing bonded contaminants off the paint first will thoroughly clean the surface, leave it completely smooth, and will help to ensure your wax, sealant, or coating bonds properly to maximize durability and longevity.

MEGUIAR'S® SURFACE PREP

M122 Surface Prep was specifically formulated with professional detailers in mind to equip them with a pro-grade inspection spray that delivers maximum performance yet is still cost-effective. It functions as a safe-yet-effective pre-paint correction step to remove contaminants that otherwise may clog your pads, an inspection spray during paint correction and as a final surface prep before applying a coating. M122 also acts as a lubricating agent that will quickly & safely remove all compound and polishing residue and oils - revealing the true surface condition. This is the ideal product to use to safely strip the surface and leave the finish completely bare, so you can obtain maximum adhesion for ceramic coatings or touch-up paint.

PRO TIPS

- Apply to the surface a let dwell for two minutes, then wipe with a Microfiber.
- Use M122 to check for paint correction opportunities and remove polishing residue prior to applying protection to the surface.
- M122 can be used on paint and trim that you want to clean dressing or dried on compound from.
- Use of M122 in place of isopropyl alcohol while detailing will not swell paint.
- Use before applying coatings and prior to doing any coating touch up.

PROFESSIONAL CLEAR PLASTIC RESTORATION

Uncoated clear plastic surfaces like headlights, taillights, and plastic convertible top windows start to become yellow, cloudy, and hazy with time and exposure to the elements. In order to obtain and maintain optical clarity on clear plastic, you need specialized products that will quickly remove defects, improve clarity, and do so without causing further harm to the surface.

MEGUIAR'S® HEAVY DUTY HEADLIGHT RESTORATION KIT

G2980 Heavy Duty Headlight Restoration Kit is the easy way to obtain professional results restoring clarity to uncoated clear plastics with a standard corded drill. This inclusive kit comes with everything needed to safely and effectively remove heavy oxidation, cloudiness, and yellowing while delivering crystal clear results. Eliminate defects with included sanding discs. Then polish up clarity with Meguiar's® PlastX Clear Plastic Cleaner & Polish and Meguiar's® Easy-Buff Wool Pad attachment using a standard corded drill. Follow with Meguiar's® Headlight Coating to preserve brilliant clarity and protect from re-oxidation for up to a year.

G2980

MEGUIAR'S CLEAR PLASTIC CARE

M17 Meguiar's® Mirror Glaze™ Clear Plastic Cleaner is a specialized non-abrasive formula that removes light defects in uncoated clear plastic surfaces without further inducing swirls and scratches. It also quickly works to clean and prepare clear plastics for M10 Clear Plastic Polish.

M10 Meguiar's® Mirror Glaze™ Clear Plastic Polish is the perfect solution for further improving brilliant optical clarity on clear plastic surfaces after removing defects with M17. M10 safely boosts clarity while providing a static-free coating that helps to repel dust on uncoated acrylic and polycarbonate surfaces.

M18 Meguiar's® Mirror Glaze™ Clear Plastic Detailer specifically formulated to help quickly and safely maintain uncoated clear plastics. This non-abrasive formula removes fresh and light contaminants, dust, smudges, and residue without scratching. M18 contains anti-static and non-hazing properties while helping to restore and maintain maximum optical clarity.

M1808

M1008

DA MICROFIBER CORRECTION SYSTEM

Meguiar's introduced the DA Microfiber Correction System to provide professional detailers and enthusiasts with a streamlined paint correction process that allows you to remove swirls, scratches, and other blemishes and then apply glossy protection, all with the use of a dual-action polisher. When it comes to paint correction, this unique system bridges the gap for defect removal between a rotary buffer and a dual-action polisher, enabling it to remove more paint defects than what a traditional DA could accomplish.

With the use of the Meguiar's® Detailer DA Microfiber Correction Compound, Meguiar's® Detailer DA Microfiber Finishing Wax, and specialized microfiber discs, this system takes the DA polisher and steps it up several levels for quicker and more effective defect removal. It's also an excellent alternative to using a rotary buffer since the DA creates less friction, making it a safer option on painted surfaces.

DMCKIT5

MEGUIAR'S® DETAILER DA MICROFIBER CORRECTION SYSTEM 5" STARTER KIT

DMCKIT5 DA Microfiber Correction System 5" Starter Kit simplifies correction in two easy steps. Removes swirls, scratches and other defects then lay down a coating of glossy protection. It corrects paint without creating swirls. Kit includes 16 ounce DA Microfiber Correction Compound, 16 ounce DA Microfiber Finishing Wax and a FREE Meguiar's™ Apron. Meguiar's DA Microfiber Correction System 5" Starter Kit is made to be used with a dual action polisher, like Meguiar's® MT300 Dual Action Polisher.

Meguiar's® Soft Buff Rotary Foam Polishing Pad

Meguiar's® Soft Buff Rotary Wool Cutting Pad

Meguiar's® Soft Buff Rotary Foam Finishing Pad

(1 each per pack)

WRFC7 Soft Buff Rotary Foam Cutting Pad (1 Each Per Pack)

Improved foam technology cuts through moderate surface defects with less swirls

Reduced operating temperature

7" pad size reduces chatter, resulting in smooth, easy buffing

Recessed backing for easy centering

For use with rotary polisher and WRBP or WRSBP backing plate

SIZE: 7"
SKU: WRFC7

METHOD: Rotary

(1 each per pack)

WRFP7 Soft Buff Rotary Foam Polishing Pad (1 Each Per Pack)

Eliminates minor surface defects while restoring gloss

7" pad size reduces chatter resulting in smooth, easy buffing

Recessed backing for easy centering

For use with rotary polisher and WRBP or WRSBP backing plate

SIZE: 7"
SKU: WRFP7

METHOD: Rotary

(1 each per pack)

WRFF7 Soft Buff Rotary Foam Finishing Pad (1 Each Per Pack)

Improved foam technology eliminates minor surface defects while restoring a luxurious high gloss finish

7" pad size reduces chatter resulting in smooth, easy buffing

Recessed backing for easy centering

For use with rotary polisher and WRBP or WRSBP backing plate

SIZE: 7"
SKU: WRFF7

METHOD: Rotary

(1 each per pack)

WRWC8 Soft Buff Rotary Wool Cutting Pad (1 Each Per Pack)

100% natural wool, 1.25," 4-ply twisted fibers for faster cutting

Effective removal of sanding marks & severe defects

Quick change hook & loop attachment system

For use with rotary buffer and WRBP or WRSBP backing plates

SIZE: 8"
SKU: WRWC8

METHOD: Rotary

(1 each per pack)

WRWHC7 Soft Buff Rotary Wool Cutting Pad (1 Each Per Pack)

1" twisted wool fibers for faster cutting

Effective removal of sanding marks & defects

For use with rotary polisher WRBP or WRSBP backing plate

Flat pad design expands cutting area to reduce buffing time

SIZE: 7"
SKU: WRWHC7

METHOD: Rotary

BACKING PLATES

Meguiar's® Soft Buff DA Backing Plates

Meguiar's® Soft Buff Rotary Backing Plates

(1 each per pack)

Front Side

SIZE: 3"
SKU: DBP3

DBP3 Soft Buff DA Backing Plate (1 Each Per Pack)

Distributes pressure for smoother sanding and finishing
Precisely tuned outer edges for ideal pad & disc contouring over flat and curved surfaces

Quick and easy pad & disc changes with micro hook and loop attachment system

Fits all DA Polishers with 5/16" - 24 diameter shaft

METHOD: DA Polisher

(1 each per pack)

Front Side

SIZE: 5"
SKU: DBP5

DBP5 Soft Buff DA Backing Plate (1 Each Per Pack)

Distributes pressure for smoother sanding and finishing
Precisely tuned outer edges for ideal pad & disc contouring over flat and curved surfaces

Quick and easy pad & disc changes with micro hook and loop attachment system

Fits all DA Polishers with 5/16" - 24 diameter shaft

METHOD: DA Polisher

(1 each per pack)

Front Side

SIZE: 6"
SKU: DBP6

DBP6 Soft Buff DA Backing Plate (1 Each Per Pack)

Distributes pressure for smoother sanding and finishing
Precisely tuned outer edges for ideal pad & disc contouring over flat and curved surfaces

Quick and easy pad & disc changes with micro hook and loop attachment system

Fits all DA Polishers with 5/16" - 24 diameter shaft

METHOD: DA Polisher

(1 each per pack)

Front Side

SIZE: 7" or 8"
SKU: WRBP

WRBP Soft Buff Rotary Backing Plate (1 Each Per Pack)

Designed for 7" & 8" Soft Buff rotary pads

Allows quick and easy pad changes with hook & loop attachment system

Self-centering system guarantees pad balance

Fits all rotary polishers with 5/8" diameter shaft

METHOD: Rotary

(1 each per pack)

Front Side

SIZE: 7" or 8"
SKU: WRSBP

WRSB Soft Buff Rotary Soft Backing Plate (1 Each Per Pack)

Designed for 7" & 8" Soft Buff rotary pads

Effectively contours to curves and body lines

Distributes pressure for smoother buffing

More forgiving, less swirls

Long lasting, one-piece molded construction

Fits all rotary polishers with 5/8" diameter shaft

METHOD: Rotary

Meguiar's® Mirror Glaze™ Unigrit™ Finishing Papers

Meguiar's® Unigrit™ Foam Finishing Discs

Meguiar's® Unigrit™ Foam Interface Pad

E7200 Hi-Tech Backing Pad

Evenly distributes hand pressure across the face of finishing paper

Closed cell construction makes it durable yet flexible

Easy to use on flat or curved surfaces

Use as a squeegee to dry surface after wet sanding

Works great as a pet hair remover

Quantity: 10 per box

SIZE: 5.5" x 2.5"
SKU: E7200

METHOD: Hand

Unigrit Sanding Blocks (1 Each Per Pack)

Excellent for completely removing runs, sags and other small, isolated defects on top of any paint surface

Safe and effective for use on all paint finishes

Precise, uniform grit particles leave a smooth, even sanding pattern that's easy to clean and polish to a flawless finish

For best results pre-soak first

Black 1000 Grit: **K1000** Yellow 1500 Grit: **K1500** Green 2000 Grit: **K2000**

METHOD: Hand (Wet)

Unigrit Finishing Paper

Uniform grit particles leave a smooth, even sanding pattern that buffs out in seconds

Eliminates the risk of deep, uneven sanding scratches

Economical to use – works faster and lasts longer

Safe for use on all paint finishes. For best results pre-soak first.

Won't load up as quickly as conventional sanding products

Waterproof, Half sheet (5.5" x 9"), Quantity: 25 sheets per pack

1000 Grit: **S1025** 1500 Grit: **S1225** 2000 Grit: **S1525**
2500 Grit: **S2525** 3000 Grit: **S3025**

METHOD: Hand (Wet)

S6F3000 Unigrit Premium Professional Finishing Discs

Refines sanding marks and removes moderate surface defects

For Use with S6FI Interface Pad

Quantity: 15 discs per box

SIZE: 3000 Grit
SKU: S6F3000

METHOD: DA Sander

S6FI UNIGRIT Foam Interface – 1 Each Per Pack

Effectively follows contours and works closer to most edges

Ideally engineered for sanding and Unigrit Finishing Discs

Inserts between the backing plate and sanding/finishing disc

Removable hook & loop attachment

SIZE: 6"
SKU: S6FI

METHOD: DA Sander

M67 Marine/RV One Step Compound

Formula is specifically designed to both clean the gel coat surfaces and leave behind a high gloss finish in one step

Removes heavy oxidation, scratches, stains, and tough hard water spots on all fiberglass gel coat surfaces

Restores neglected surfaces while producing an amazing shine and luster

Restores the color leaving behind a rich, high gloss

SIZES: 1 gallon, 32 oz.
SKUS: M6701, M6732

METHOD: Hand, DA
DILUTION: RTU

BODY SHOP SAFE

M91 Marine/RV Power Cut Compound

Super-fast cutting, low swirl compound

Removes sanding scratches and heavy oxidation, without scouring the finish

Safe and effective on fiberglass gel coat and painted surfaces

Will not scour the finish like conventional compounds

SIZES: 32 oz.
SKUS: M9132

METHOD: Rotary
DILUTION: RTU

BODY SHOP SAFE

M49 Marine/RV Oxidation Remover

Safely removes moderate oxidation, waterspots, stains, and scratches from gel coat and fiberglass surfaces

Formulated with enriched feeder oils to restore color while adding and enhancing brilliant shine and gloss

Restores the original color of older fiberglass gel coat surfaces by effectively removing surface degradation

Unique diminishing abrasives break down and safely disappear during application leaving the surface with a brilliant look and shine

SIZES: 1 gallon, 32 oz.
SKUS: M4901, M4916

METHOD: Hand, DA
DILUTION: RTU

BODY SHOP SAFE

M44 Marine/RV Color Restorer

Safely removes light oxidation, stains, and blemishes from fiberglass gel coat surfaces

Revives color and enhances gloss to reveal original vibrant appearance

Diminishing abrasives and mild cleaning agents work gently to revive and restore gel coats and fiberglass to their original luster

Formulated specifically for removing light defects from all gel coat and fiberglass surfaces

SIZES: 32 oz.
SKUS: M4416

METHOD: Hand, DA
DILUTION: RTU

BODY SHOP SAFE

M50 Marine/RV Cleaner Wax

Non-abrasive formula quickly cleans, polishes, and protects all fiberglass gel coat marine or RV surfaces in one easy step

Safely and effectively removes light oxidation, haze, minor scratches and swirls

Provides durable long-lasting protection against salt air, corrosion and the sun's ultraviolet rays

Easily restores color, brilliance, and gloss to fiberglass gel coat surfaces

SIZES: 1 gallon, 32 oz., 16 oz.
SKUS: M5001, M5032, 5016

METHOD: Hand, DA
DILUTION: RTU

BODY SHOP SAFE

M63 Marine/RV Flagship Marine Wax

Easy to use formula offers long-lasting polymer protection and incredible deep gloss to fiberglass and gel coat surfaces

Protects against UV damage and wear

Removes light oxidation, fine scratches and swirls while providing long-lasting protection

Dramatically enriches color and shine while bringing out the full richness of the surface

Easy to apply and easy to wipe off

SIZES: 1 gallon, 32 oz., 16 oz., 11 oz. Paste Wax
SKUS: M6301, M6332, M6316, M6311

METHOD: Hand, DA
DILUTION: RTU
